Dear Doctor Lederberg:

The first of a series of Annual Martha V. Filbert Distinguished Scholar Lectures is scheduled to be held at the University of Maryland School of Medicine in Baltimore during the week of November 8, 1971, under the sponsorship of the Division of Radiation Therapy. Upon the unanimous recommendation of the selection committee, it is my pleasure and privilege to invite you to be the first speaker in this lecture series.

The dates available for the lecture are November 8, 9, 10 and 11 with the lecture to be presented late in the afternoon and followed by a dinner for the senior faculty and other invited guests. The audience of the lecture will be composed of physicians, medical students as well as being open to other individuals in the health or biological sciences. The token honorarium is \$1,000. It is our sincere hope that your schedule will permit acceptance of this invitation with the choice of one of the four dates listed above available to you. I look forward to an affirmative reply at your earliest convenience. If you should be able to accept, I will be able to provide further details and would hope to arrange the final details with you about mid October when Ed Edelsack of O.N.R. and I will be in the San Francisco area.

Sincerely yours,

Morris J. Wizenberg, M.D.  
Professor of Radiology  
Head, Division of Radiation Therapy

MJW:sam

WIZENBERG, M.
